WHAT IT CONTROLS

- Owner-side visibility
- Contractor communication
- Site attendance records
- Issue and decision logs
- Weekly delivery reporting

URIYEL SITEWORKS

- Check-in / check-out
- Risk acknowledgement
- Site notes and photos
- Client messages
- Export-ready records

SUITABLE FOR

- Private asset owners
- Family-office property
- Investment-backed works
- Cross-border owners
- Consultant-led projects

PROOF BASE

Developed from live UK private property works.

The model is informed by MVB delivery experience across site access, staged refurbishment works, contractor coordination, building-control communication, visual records and client-facing reporting at projects including 43 Friends Road and Alhambra House.

CONTROLLED PILOT

One project. Clearer site visibility. Exportable delivery records.

Initial setup can focus on attendance, RAMS acknowledgement, notes, photo records and weekly owner reporting.
