

HONG KONG / SITEWORKS

30-day project control pilot.

A managed record and reporting layer for one live property, rehabilitation, fit-out or facilities project.

Scope One project or defined workstream	Duration 30 days	Founding price From HK\$28,000	Ongoing From HK\$12,000/month
---	----------------------------	--	---

WHAT THE PILOT CONTROLS

Attendance and access

Authorised project entry, organisation, role and time records.

Evidence and issues

Notes, photographs and files indexed to a location, category or issue reference.

Decisions and reporting

Open actions, responsibility, status, due dates and a concise weekly management pack.

PILOT SEQUENCE

01 / Discover

Map the record gap, users, reporting need and data purpose.

02 / Configure

Set roles, record categories, issue priorities, recipients and retention.

03 / Operate

Use SiteWorks in one live environment and issue weekly packs.

04 / Decide

Continue, revise or stop after reviewing measurable operational value.

Professional boundary

SiteWorks supports operational evidence and management reporting. It does not replace the contractor, Authorised Person, engineer, safety personnel, statutory certificates, 4S systems or professional advice.

REMOTE START FROM LONDON

Discovery, demonstration and configuration can begin by video. Hong Kong site attendance and local delivery requirements are separately scoped.
